Profile

Results-driven Angular Frontend Developer with 3.2+ years of hands-on experience building scalable, responsive web applications using Angular (v11–17+), TypeScript, SCSS, RxJS, and REST APIs. Proficient in translating Figma designs into pixel-perfect interfaces, integrating APIs, and optimizing performance through lazy loading and modular architecture. Experienced in Agile environments, Git workflows, and modern UI/UX practices. Immediate joiner.

Core Skills: Angular 17+, TypeScript, RxJS, NgRx (Basic), HTML5, SCSS, REST APIs, Git, Bootstrap, Agile, Responsive Design, Figma

Skills

Frontend: Angular (v11–17+), TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, Bootstrap, jQuery, Responsive Design	State Management: RxJS, NgRx (basics)
Backend & APIs: RESTful APIs, ASP.NET ☑ Core, Web API, SQL Server	Tools & Practices: Git, Bitbucket, Postman, Chrome DevTools, Agile, CI/CD, Figma, Performance Optimization, Cross-Browser Testing

Professional Experience

Software Engineer (Band-2), DataLyzer Technologies Pvt. Ltd. • Developed responsive Angular UI components and modules (v11–15). • Implemented lazy loading and route-level code splitting to improve app performance. • Ensured multilingual compatibility across 12 languages using SCSS and media queries. • Integrated complex RESTful APIs with observables and RxJS. • Converted Figma wireframes to pixel-perfect layouts using Flex/Grid. • Contributed to daily scrums, sprint planning, and retros. • Recognized as <i>Star of the Month (Oct 2022)</i> for leading timely UI delivery.	05/2022 – 12/2024 Bangalore
Full Stack Developer Intern, Takaba Technologies Pvt. Ltd. • Built reusable Angular components and integrated backend services using .NET Core. • Supported internal tools for sales and marketing departments. • Improved existing workflows and contributed to frontend optimization.	02/2021 – 07/2021 Kundapura

Projects

Portfolio Website (Personal), Angular 17+, SCSS, Bootstrap, Netlify • Designed and deployed personal portfolio to showcase skills and projects. • Demonstrates component structure, routing, and responsive design practices.	07/2025 – 07/2025

Qualis SPC – Quality Management System,

05/2022 – 12/2024

Angular 11, SCSS, REST API, Git | Team Size: 15 | Role: Frontend Developer

- Built modular dashboards and chart visualizations for real-time quality data.
- Improved cross-browser compatibility and fixed layout issues.
- Created a design system to maintain UI consistency across modules.

Education

MCA – Master of Computer Applications, *N.M.A.M Institute of Technology, NITTE*

08/2018 – 07/2021

Karkala, Karnataka

BCA – Bachelor of Computer Applications,

SRSMNGFGC, Barkur – Mangalore University

06/2015 – 05/2018

Barkur, Karnataka

Certificates

**Responsive Web Design –
freeCodeCamp, Mar 2025**
