- Frontend: Angular (v11+), TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, Bootstrap, jQuery, Responsive Design, UI/UX
- State Management: RxJS, NgRx
- Backend & APIs: RESTful APIs, ASP.NET, Web API, Microservices, SQL Server
- Tools: Git, Bitbucket, Chrome DevTools, Postman
- Practices: Agile, CI/CD, Cross-Browser Testing, Performance Optimization

CERTIFICATIONS

- Responsive Web Design, freeCodeCamp – 03/2025 https://www.freecodecamp.org/certification/fcc76c50a34-5752-432f-8539-86838140d4d9/responsive-web-design

PROFILE

Frontend Developer with 3.2 years of experience building responsive, scalable web applications using Angular (v11+), TypeScript, HTML5, and SCSS. Proven ability to translate UI/UX designs into pixel-perfect components and resolve real-world challenges such as multilingual layout consistency and performance optimization. Adept in Agile development, RESTful API integration, and modern front-end architecture. Recognized for taking ownership of UI quality and delivering seamless cross-device experiences.

WORK EXPERIENCE

Software Engineer (**Band-2**) 05/2022 - 12/2024
DataLyzer Technologies Pvt. Ltd., Bangalore

- Developed and maintained scalable UI components using Angular 11+ and TypeScript.
- Ensured multilingual responsiveness across 12 languages using media queries and conditional styling.
- Optimized performance by introducing lazy loading, code splitting, reducing load time.
- Integrated RESTful APIs for real-time data with RxJS state management.
- Converted Figma prototypes into pixel-perfect UIs using SCSS and Flex/Grid layout.
- Participated in Agile ceremonies; contributed to planning, retros, and daily scrums.
- Awarded 'Star of the Month' in Oct 2022 for leading UI module delivery.

Full Stack Developer Intern 02/2021 - 07/2021
Takaba Technologies Pvt. Ltd., Kundapura

- Supported full-stack development activities for internal systems.
- Built reusable Angular components and integrated backend APIs using .NET Core.
- Enhanced workflows for sales and marketing modules.

KEY PROJECT

Project: Qualis SPC – Quality Management System
Tech: Angular 11, REST API, HTML5, SCSS | Role: Frontend Developer | Team Size: 15
- Built dashboards and charts for real-time quality data visualization.
- Enhanced cross-browser compatibility; resolved layout bugs.
- Developed reusable design system and improved user engagement.

DECLARATION

Considered familiar with various aspects of information tehnology, with confidence in the ability to work effectively both in team and independently. The information furnished above is declared true to the best of knowledge.
